Letter of Agreement and Understanding Relating to fileProWEB software.

With the release of the fileProWEB product, it has become necessary for fP Technologies of Ohio, Inc. to set-forth guidelines for usage of their web-based product line to protect the security and accessibility to this product. To this end, the fileProGI software now features both GI and WEB sessions and is being licensed to the application developer or end users (Licensee) under the following condition(s):

- a) The Licensee will be **required to purchase and maintain** an annual subscription for the fileProGI product based on the total number of concurrent sessions (GI and/or WEB) at the current annual subscription rate per session.
- b) A notice of expiration will be displayed sixty (60) days prior to the expiration date. Should the Licensee fail to renew or allows the annual subscription to expire for any reason, the fileProGI product license will expire for the fileProWEB feature and will no longer be usable until full payment is received. Once payment is received, the fileProWEB feature will be reactivated and usable again.
- c) Port number 6680 must be made available to use the internet.
- d) The Licensee will have full access to the other-filePro products (filePro Plus, fileProGI, etc.) and their software applications; therefore, they will be able to continue to operate their system in a non-web mode as long as they have a valid license.

The undersigned, agrees to the terms of this agreement and accepts the conditions as stated above.
